

TASER NON-FIELD DISCHARGE REPORT

CHICAGO POLICE DEPARTMENT

This report will be used to document all non-field discharges of a Taser device. The non-field discharge of a Taser is any spark test outside of the first hour of the member's tour of duty, spark test lasting more than five seconds and the use of a spark display where there is no electrical contact with the subject or cartridge discharge. **NOTE:** Taser discharges used strictly for the purpose of Department conducted training, certification, or annual recertification do not require the completion of a Taser Non-Field Discharge Report.
