

AUTHORIZATION FOR PHOTOGRAPHIC USE
Chicago Police Department

I understand that the City of Chicago Police Department creates pamphlets, flyers, and other publications to give to community residents. The purpose of all of these publications is, in part, to inform residents about recent crimes and the victims of those crimes. By circulating these publications, the Police Department seeks to raise awareness about the detrimental effect crime has on our community and to encourage persons who may have information about a crime to report that information to law enforcement officials.

A member of my family below the age of 18 has been the victim of a crime. The Police Department has asked me to provide a photograph of my family member so that the photograph may be included on a pamphlet, flyer, or other publication that will be provided to community residents.

I would like to help the Police Department in its community-outreach program and have agreed to provide the Police Department with a photograph of my family member. By signing this authorization, I state that I am the parent or legal guardian of the crime victim. I understand that the Police Department will use the photograph in a pamphlet, flyer, or other publication, and I expressly authorize the use of the photograph. A Police Department representative has told me that the photograph will be returned to me after the publication has been prepared.
