

ITEM: AMMUNITION CASE

MATERIAL: Leather

CONSTRUCTION: Single or multi-pieced construction, 6 to 8 ounce leather, for affixing to the trouser or equipment belt, to securely hold six prescribed revolver cartridges in the vertical position within an integral pouch.

Color: Black body, low to moderate gloss, polished white or black metal snap fastener.

Design: Plain, smooth finish, without ornamentation or carving. Snap fastener for cover, to extend from the top down. Of a design which loops around the trouser or equipment belt. It is fastened around the belt by a metal stud/cap snap assembly.

Size: To permit close fit to the belt.

Width: To be approximately 3" wide

Belt Loop: To be an integral loop in the rear to attach to the belt.

AUTHORIZATIONS/
RESTRICTIONS:

1. No object is to be placed between the ammunition case and the belt.
2. Circular-type revolver loaders are not authorized as substitutes for the prescribed ammunition case.
3. Clip pouches for semi-automatic handguns will conform to the following requirements if worn exposed:
 - a. Material: Leather.
 - b. Color: Black body, low to moderate gloss.
 - c. Construction: Single or multi-pieced construction, 6 to 8 ounce leather, for affixing to the trouser belt, to securely hold one or two semi-automatic handgun clips in the vertical position.
 - d. Design: Plain, smooth finish, without ornamentation or carving. Polished, white or black metal snap fastener or Velcro[®] hidden closure will be utilized for securing the required, integral top flap.
 - e. To permit close fit to the belt.
 - f. Belt Loop: To be an integral loop in the rear to attach to the belt.
4. Exposed belt secured ammunition cases which hold ammunition other than prescribed ammunition are to be black in color, low to moderate gloss, plain in design and without ornamentation or carving.
